**PETITIONING THE COURT**

To modify the conditions of supervision as follows:

- 16 You shall reside in a residential reentry center for a period of up to 90 days. You shall not be entitled to the benefits of the prerelease component. You shall abide by the rules and requirements of the facility. You shall remain at the facility until discharged by the Court.

**CAUSE**

Mr. Morrow failed to report on four separate occasions for urinalysis testing at New Horizon Care Center since mid-January 2007. On February 21, 2007, he submitted a urine sample that screened positive for methamphetamine and opiates. On February 23, 2007, he signed a "last chance" contract with New Horizon Care Center requiring he abstain completely from the use of controlled substances, and report for all required urinalysis testing. On February 27, 2007, he submitted another urine sample that was presumptive positive for both methamphetamine and opiates.

The undersigned officer has staffed the defendant's current non-compliance with Art Garcia at New Horizon. The position of the treatment provider is that Mr. Morrow is not capable of maintaining sobriety while in his current community setting. They will allow him to continue his treatment if he enters inpatient treatment or returns to the structured setting of a residential reentry center (RRC). Otherwise, he will be terminated from their program.

Mr. Morrow remains gainfully employed, and has indicated that he would like the opportunity to maintain his employment. He believes that returning to the RRC will allow him to maintain employment, while continuing his substance abuse treatment. The undersigned officer concurs with his position, and believes the structured setting of the RRC will assist him in regaining his sobriety. He has agreed to reside at the RRC for up to 90 days to accomplish these goals.
